Information Reports**

**OAMME: Providing world's "best practice" security consulting services in Africa, the Middle East, S-E Asia, Indochina, and Latin America**

## TESTED AND PROVEN SECURITY SOLUTIONS

- ♦ Professional security support services at both the tactical and strategic level
- ♦ Training of security staff at all levels of field operational deployment
- ♦ Development of appropriate SOPs and preparation of a formal Company Security Policy
- ♦ *In situ* security management consultants providing here and now support to field teams and project managers
- ♦ Pre-deployment intelligence briefings alerting staff to the tactical risks inherent in their specific area of operations
- ♦ Evacuation, emergency response and/or disaster management planning
- ♦ Management of Community Relations programmes (health, education and social infrastructure development at village level)
- ♦ Professional liaison with Police and Defence officials at all levels (National, Regional and local)
- ♦ Training of military Special Forces personnel in counter insurgency, counter terrorism and hostage rescue

**OAMME Principals have extensive experience, from modern cities managing commercial security for multinational energy and resource industry clients, to mining exploration, geophysics and drill team personnel support, and in high risk conflict zones, delivering training to military formations and Special Forces teams, and VIP Close Protection teams**

**OAMME provides pre-deployment briefings and strategic country security audits outlining current threats, and advises on effective risk avoidance strategies, crisis planning, evacuation procedures in the event of a breakdown in law and order, and disaster recovery plans**

**The OAMME Principals and Consultants understand the risks inherent in operating in dangerous and challenging environments, and OAMME's highly qualified and regionally experienced Principals and Consultants provide sound and effective advice based on firsthand knowledge of the risks at hand.**
