“PLAN PREPARE PROTECT”

The OAM Principals and retained consultants understand the risks inherent in operating in dangerous and challenging environments. OAM's highly qualified and regionally experienced managers provide sound and effective advice based on firsthand knowledge of the risks at hand.

OAM Principals and consultants bring extensive security experience to their tasks. From advising CEOs in the corporate Boardroom of major multinationals, to supporting and protecting in-field exploration teams, and providing in-situ security managers to major resource recovery operations.

Duties are delivered in high risk and challenging conflict zones and regions of heightened threat.

OAM provides pre-deployment briefings to project management and staff, and advises on effective risk avoidance, crisis management and evacuation planning and procedures

Security for the challenging roads ahead

Providing World's "Best Practice" security management and consulting services in Africa, the Middle East, SE Asia and Indochina.
